

Resolution Affirming International and Immigrant Students

February 9, 2017

Resolution

The College of DuPage Faculty Senate is the voice of the full time COD faculty, and Senators support and affirm students, faculty, and staff of all religious and ethnic backgrounds in our District #502 community. In particular, our international and immigrant students have an important and respected role in our teaching and learning at the College of DuPage.

Furthermore, CODFA advocates for the rights, dignity, and safety of all faculty and students, and because of the recent presidential executive orders and judicial stays and hearings, we call on COD as an institution of public higher education to reaffirm its commitment to federal and state protections and College policies on nondiscrimination, privacy, and safety for students, faculty, and staff.
